

Specifications

Feature	Specification
Measurement Range	0.6-33.3 mmol/L (10 to 600 mg/dL)
Result Calibration	Plasma-equivalent
Sample	Fresh whole blood (Capillary and Neonatal)
Minimum Sample Size	0.8 µL
Test Time	5 seconds
On/Off Source	Two (2) CR 2032 3.0V coin cell batteries
Battery Life	Minimum of 3,000 measurements (without considering data transfer and test reminder alarm)
Glucose Units of Measure	The meter is pre-set to either millimoles per liter (mmol/L) or milligrams per deciliter (mg/dL) depending on the standard of your country
Memory	Up to 300 records with time and date
Automatic shutoff	2 minutes after last action
Meter Size	90mm x 58mm x 21mm
Display Size	41mm x 37mm
Weight	66g (with battery installed)
Operating Temperature	5-45°C (41 - 113°F)
Operating Relative Humidity	10-90%
Hematocrit Range	20-70%
Data Port	9600 baud, 8 data bits, 1 stop bit, no parity

Take Charge of a Better Life

- Available for Neonatal Blood Testing
- Excellent Performance
- Safe and Convenient
- Advanced Testing Features for Those Who Want More

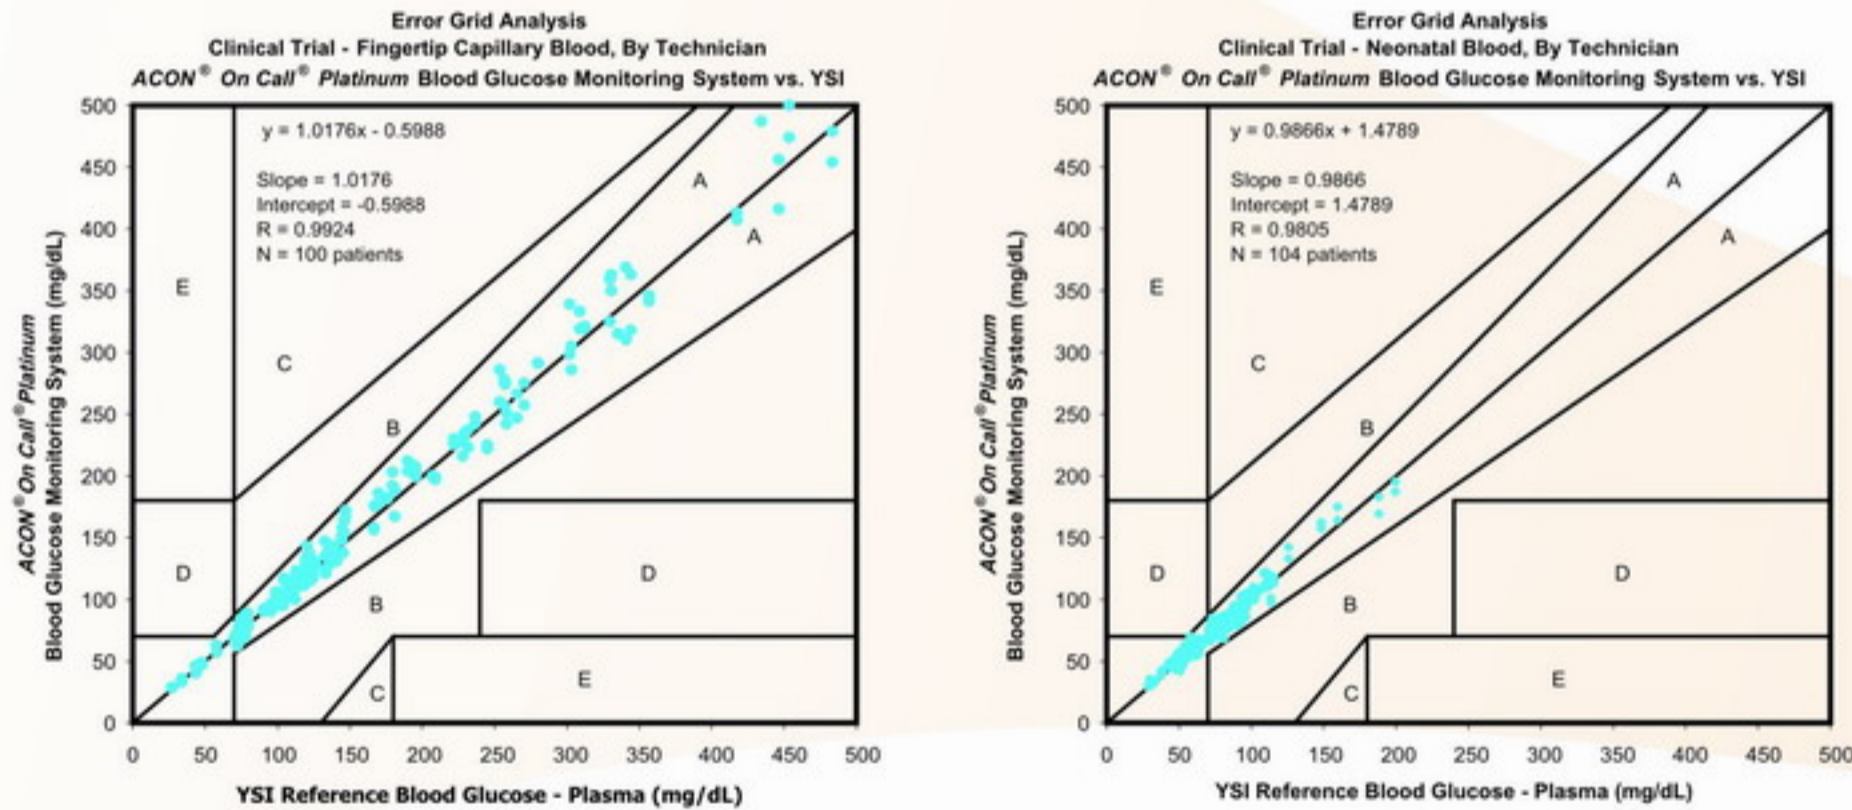

Available for Neonatal Blood Testing

In addition to capillary blood, the *On Call® Platinum* Blood Glucose Monitoring System is available for neonatal blood testing* and anemic blood testing* by means of advanced hematocrit auto-correction technology.

Excellent Performance

- Easy 2-step test operation
- Simple sample application using end-fill wicking action strips
- Virtually painless testing with tiny sample size (0.8µL) and AST
- Accurate results delivered in just 5 seconds

Extensive clinical studies prove the accuracy of the *On Call® Platinum* Blood Glucose Monitoring System with fresh capillary and neonatal blood.

- * Neonatal blood contains higher hematocrit levels (51-65%) and lower glucose concentrations (20-80mg/dL) than normal healthy blood.
- * Anemic blood may contain hematocrit level less than 33%. Advanced *On Call® Platinum* blood test monitoring system provides a wide 20-70% hematocrit range.

Safe and Convenient

- Strip ejector allows easy strip disposal
- Lancet ejector used for convenient lancet release
- Individually foil wrapped test strips available for more convenience

Advanced Testing Features for Those Who Want More

- 5 optional programmable reminders help maintain regular testing and injection routines
- Meal-markers included to monitor results before and after meals
- Ketone, Hypo and Hyper warnings alert for necessary action
- 300 test memory with date and time
- Long battery life – up to 3,000 tests
- Easy PC download using a USB cable
- 7, 14, 30, 60 and 90-day averaging allows users to quickly access trends in blood glucose levels
- *On Call®* Diabetes Management Software Kit available for better data management
