

## Model No.: DBP-01HP

### Key Features:

- \* Motion tolerance, Reading Accurate
- \* Measurement during intelligent inflation, Fast & Comfortable, 22s only
- \* Cuff cylinder is adjustable at up-down right-left angle, easy fits user body position
- \* Infrared detection, Pre-readiness.
- \* Automatic reminding of elbow position upon elbow position sensor.
- \* Super long lifetime, 200,000 times
- \* Modular design, easy to assembly
- \* Ports: 232 connection port, USB connection port, Ethernet

### Specification:

Name:	Clinical Automatic Blood Pressure Monitor
Model No.:	DBP-01HP
Technology:	Intelligent Inflation Oscillometric
Systolic:	40-260 mmHg
Diastolic:	20-210 mmHg
Pulse Rate:	40-200 bpm
Accuracy:	±3 mmHg
Calibration:	At least once per two years
Safety:	Valve open automatically for deflation upon max inflation pressure 290mmHg. Pushing "Stop" button upon emergency, deflating quickly.
Memory:	9999 readings
Power:	110-240V AC, 50/60Hz
Printer:	Thermal printing, Paper size 58mm
Cuff Circumference:	17cm-42cm
Voice:	Voice introduction of operation & reading, Language Option: Chinese, English. On/Off Option
Size:	310mm x 476mm x 300mm
Net Weight:	6.5 kg
Electric Shock Protection:	Class I
Working Condition:	Temp +5°C-+40°C, RH 10%-95%, Air Pressure 70-106 kPa.
Storage Condition:	Temp -2°C-+55°C, RH ≤95%, Air Pressure 70-106 kPa
